

## Marine Life Injuries First Aid

### Know what to look for and treat common aquatic injuries

DAN First Aid for Hazardous Marine Life Injuries course teaches divers how to identify and avoid potentially harmful marine life. It also provides first aid skills to minimize these injuries and reduce discomfort.

**You will learn about:**

- Vertebrate and invertebrate sources of envenomations
- Traumatic injuries
- Life-threatening complications
- Seafood poisonings
- Avoidance of marine life injuries

**You will develop the following skills:**

- Initial assessment
- Shock management
- Treatment of stinging and spiny envenomations and injuries
- Control of external bleeding
- Pressure immobilization technique
- Severe allergic reactions
- Creation of an emergency assistance plan

Individual Price: \$95.00
