

Neurological Assessment

Know the Signs

The DAN Neurological Assessment course focuses on how to obtain essential information about an individual involved in a dive emergency or suspected of having a stroke and what information to relay to EMS.

You will learn about:

- Nervous system overview
- Stroke
- Decompression illness
- Neurological assessments

You will develop the following skills:

- Making a F-A-S-T assessment
- Taking a history
- Monitoring vital signs
- Assessing cranial nerve function
- Determining mental function
- Evaluating motor function
- Assessing coordination and balance

Individual Price: \$75.00

Group rates vary
